

MONUMENT TOOLS PUZZLE PAGE

This month, we're giving you the chance to win one of five Monument Toolbags.

The MAST201871 Gas Engineers/Plumbers Toolbag has been designed by Monument with the help of the Monument Masters – groups of professional gas and heating engineers helping to design the next generation of products to ensure that they make the job easier for the engineer.

The bag features a diagonal velcro pocket, designed for a gas test gauge like the Monument 30mb Manometer, angled upwards so the instrument will not fall out.

The main compartment features adjustable velcro dividers, allowing for a flue gas analyser and printer to be positioned and stored at the bottom of the compartment.

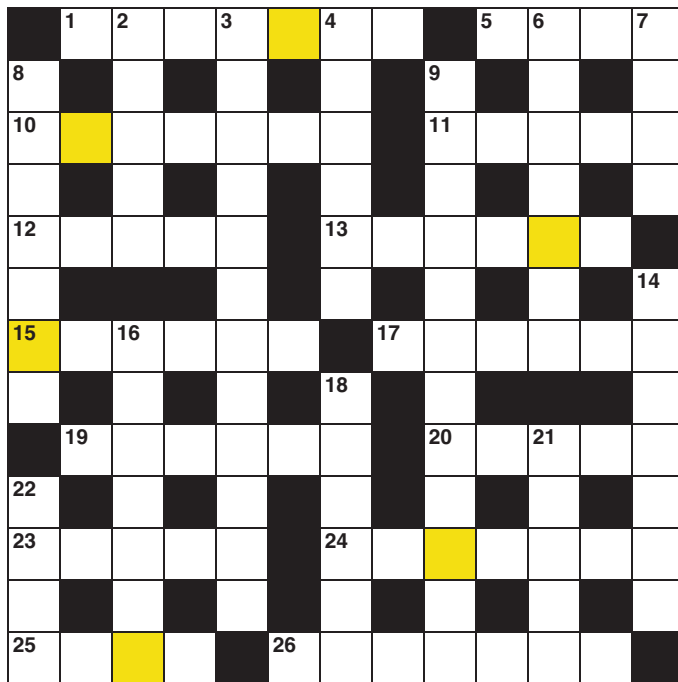

There is also a pocket for flue gas analyser probes, ensuring these are separated from the rest of the tools within the bag, as well as a padded pocket for a tablet. There are an additional 15 assorted small internal pockets in the drop down flaps. The bag is comfortable to carry with double stitched strap and strong velcro closing handles.
